LIFE Programme & Clean Energy Transition

LIFE Programme - [link](#)

- The only EU funding programme **exclusively dedicated** to the environment, nature protection and climate action
- Supports **innovative and practical solutions** with European added value
- In its 33 years of existence, the LIFE Programme has supported **more than 6,000 projects**
- Current budget (2021–2027): **€5.4 billion**

Clean Energy Transition (CET) Sub-programme - [link](#)

- Focus: accelerating the energy transition in Europe
- Provides soft measures: capacity building, awareness, advice, training, networking, removing barriers
- Targets: **citizens, communities, municipalities, SMEs**
- [Open calls](#) under CET Sub-programme (Deadline: **23 September 2025**)

How the NCP can support applicants

Providing information

- Providing information about the Programme
- Information seminars for applicants
- Website administration – www.program-life.cz

Consulting a project concept

- Consulting the suitability of the LIFE programme to finance a project
- Mediating consultations with expert guarantors regarding the project's technical aspects

Financial support (national calls)

- Assistance with co-financing the own contribution of coordinating beneficiaries and partners
- Support for project documentation preparation

Other services for applicants

- Assistance with finding project partners
- Administrative support for submitting an application to the European call

Thank you for your attention
